- Early Screening
- Advanced Eye Testing
- Personalized Treatment
- Long-Term Vision Care

Don't Let **Glaucoma**
Steal Your Sight.

What Is Glaucoma?

Glaucoma is an eye condition that damages the optic nerve, usually due to **increased eye pressure**.

If untreated, it can lead to permanent **vision** loss.

Common Symptoms

- Gradual vision loss
- Eye pressure
- Headache
- Blurred vision
- Halos around lights
- Poor side vision

Some types may show no early symptoms.

Risk Factors

- ✓ Age above 40
- ✓ Diabetes
- ✓ Family history
- ✓ High eye pressure
- ✓ Long-term steroid use

Glaucoma Evaluation

We use advanced diagnostic tests to detect glaucoma early and monitor progression.

Tests may include:

- Eye pressure check
- Optic nerve evaluation
- Visual field testing
- OCT scan

Treatment Options

Eye Drops

Help reduce eye pressure and protect vision.

Laser Treatment

Improves eye fluid drainage in selected patients.

Glaucoma Surgery

Recommended in advanced or uncontrolled cases.

Our Approach

Early diagnosis and regular follow-up are essential to prevent vision loss.
